Downloading Data and Application for StaySafe

To begin, you will need to navigate to the teams website: brazos.cs.tcu.edu/1415MakeSafe

Make	₹ 97% ∎ 8:35 PM
About Team WARS Schedule Deliverables Resources PowerPoint 3 StaySafe Abstract Image: Comparison of the state of the	
Download Application File IO Demo Instructions Data () T3 Demo	

You will need to navigate to the resources tab and download the <u>Data</u> and the <u>App</u> by clicking the links on this page. *(shown above)*

If you downloaded these items on the tablet, navigate to the Android file explorer "My Files" (shown above)

Navigate to the "Download" folder. *(shown above)* Here you will see the two files previously downloaded. From here you will need to tap on each item to extract them. For the StaySafe.zip download, you *must* name it StaySafe as seen below.

Extract StaySafe 201		Device storage > Do	wnload	_
StaySafe 2015		Extract		
	ř	StaySafe		2015
201	^			2015
Cancel OK		Cancel	ок	

Now that both items are extracted, your downloads folder will look like below image.

My Files		5	👪 😂 ९ 🚦			
🕜 Timeline	Device storage > Download					
	Name	Time 🔻	Type Size			
	StaySafe.zip					
FOLDERS ^	app.zip					
Device storage	app					
⊖ 📥 Download						
app	StaySafe	03/04/2015 8:37 PM	Folder 4 items			
🕀 🦰 StaySafe						
⊕ 🦰 StaySafe						
Studio						
ScreenSaver						
PhotoEditor						

The next step in the setup of the app is moving the StaySafe folder into the root directory of the device called "Device Storage"

To accomplish this task, you need to *tap and hold* the StaySafe folder until a green check mark appears to the left of the yellow folder indicating it has been selected. *(shown above)* Once this is done properly, a new set of icons will appear in the top right corner of the tablet screen. With the StaySafe folder selected, tap on the move icon marked in the above screenshot.

My Files		Cancel Move here
🕜 Timeline	Device storage	
•	Name	Time 🔻 Type 🛛 Size

	ScreenSaver	
Ctudio	PhotoEditor	
SaraanSayar	DCIM	
PhotoEditor	Kids Mode	
	Documents	
Kids Mode	Playlists	
	Ringtones	
	Android	

From here, you need to navigate to the root folder "Device Storage" and tap the "Move here" dialogue in the upper-right corner of the tablet screen.

Now, navigate back to the Download folder and tap on the remaining "app" folder

To install the application, tap on the "StaySafe.apk" file.
